# BELGIAN DIGITAL INFRASTRUCTURE

---

## About Us

The Belgian Digital Infrastructure Association (BDIA) brings together market-leading Belgian companies, active in the world of digital infrastructure, with the mission of strengthening the economic growth and raising the profile of data centers in society.

**Promotion | Expand our position**

**Employment | Connect companies with professionals**

**Knowledge | Share knowledge to grow together**

# WHAT IS BDIA?

---

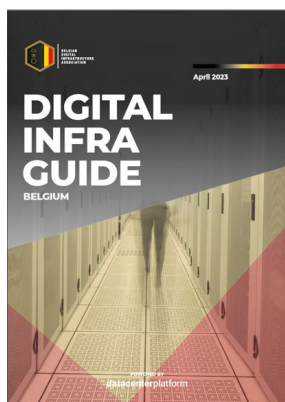

# OUR MISSION

---

- Operate as the **main point of contact** and **knowledge source** for our digital industry
- Increase the **visibility** of the Belgian sector among various stakeholders (media, governments, society) through events, news updates, market reports and social media posts.
- Increase **connectedness** between the organizations of our sector
- Organize **multiple networking events**
- Promote **employment opportunities**

# OUR ACTIVITIES

- **Promote** the sector to end-customers
- Two **market reports** per year
- Expand Belgium's international position
- Promote the **use** and **outsourcing**
- Provide information to the public and government about our digital sector
- Be the **main point of contact** for our industry
- Networking opportunities with **multiple events** per year

# BENEFITS OF BDIA PARTNERSHIP

---

- Being part of the group of **leading digital infrastructure companies** in Belgium
- Visibility, **branding** opportunities
- **A strong network**
- Thought leadership
- Promotion on **national** and **international** level
- Access to **events**
- **Information database** with latest updates and trends about the industry

# GOVERNANCE AND ORGANIZATION

---

The BDIA has been set up as an association with a board. The board consists of

- Barro Luitjes  
(managing director KevlinX)
- Friso Haringsma  
(managing director Datacenter United)
- Stijn Grove (Managing Director Dutch Data Center Association)

As of October 1 2023, the BDIA will appoint an executive director.

In addition, a partnership has been established with the Dutch Data Center Association (DDA) to run the secretariat.
